CORPORATE PRESENTATION

F Y 2 0 2 6 - 2 7

India's First Intelligent Commerce Ecosystem

- 01 GROKLY
- 02 SWADISHTT
- 03 DineX
- 04 INSTASTYLE
- 05 LocalMeds

"To become India's most trusted daily-life commerce infrastructure, powering how 350 million households consume, plan, and live."

Access is Solved

Clarity in consumption is not. We provide the intelligence layer that bridges the gap.

Personalisation Must Be Practical

Not promotional. Every feature adapts to how households actually live and spend.

The Future Is Coordination

Not speed and discounts alone. Intelligence and coordination define the next era of Indian commerce.

Accesco Living is India's first intelligent commerce ecosystem — unifying daily household spending

Consumer Intelligence Platform

Accesco Living unifies groceries, food delivery, dining, fashion, and healthcare into one integrated platform powered by an intelligent budget and personalisation layer — transforming routine spending into a structured, predictable, and personalised experience for India's middle-class families.

Pioneers of intelligent household commerce — driven by personalisation, not just speed

Household Intelligence

My Home Profile restructures the entire catalogue for each family — a bachelor sees instant packs, a joint family sees bulk staples. Not recommendations. The store itself adapts

Intelligent Budget Layer

Users set spending budgets. Every product tagged 'Within Your Budget.' Guides spending without restricting choice — creating financial clarity with full flexibility.

Single Cart Ecosystem

One cart across Grokly, Swadisht, and Instastyle. Single checkout, one delivery charge, consolidated tracking. Five ventures feel like one seamless experience.

Return & Earn Loop

Every delivery rider returns to dark store with recyclable waste from customers. Zero additional route cost. Sustainability that creates real user value through carbon credits.

Mood Mode

Optional toggle activates context-aware curation: comfort kits, festive picks, meal suggestions. Collects behavioural signals that feed the personalisation engine with every interaction.

We build infrastructure that learns how your household lives — and adapts commerce around it

LiveFeed Commerce

UGC-powered shoppable video feed in Swadisht and Instastyle. Real food plating, fabric drape, real-wear demos. Direct 'Order Now' button. Content replaces advertising spend.

Building India's commerce infrastructure — milestone by milestone

INDUSTRY OVERVIEW

India's commerce landscape — the macro forces shaping our moment

THE FRAGMENTATION TAX

Urban India Uses 5 Separate Apps for One Lifestyle — ■ 18,700/Month, Zero Coordination

QC Consumer Trust Crisis — Documented Failures Across All Major Platform

r/FuxZepto has 30,000+ members. Maharashtra FDA violations. FSSAI Advisory December 2024.

KEY INSIGHT

A typical Bengaluru household splits
■ 18,700/month across 5 apps: 5 logins, 5 carts, 5 delivery windows, 5 customer supports. Accesco Living eliminates every layer of this fragmentation through one intelligent platform — LifeCart.

THE SUPPLY CHAIN TAX

A Rs 6 Tomato Becomes Rs 40 at Your Door — 6 Middlemen Extract Rs 34 Across 60km

Decision Fatigue & Customisation Gap — India Online Shoppers 2025

% respondents. 100% feel it boring. Only 36% enjoy it. The experience is broken.

Source: One2One1 Consumer Report 2025 – India Consumer Survey | Campaign India, Apr 2025

KEY INSIGHT

Six intermediary layers add a 567% markup on a 60km journey from Kolar to Koramangala. Accesco Grokly's Hyperpure-style direct procurement removes these layers — passing savings to consumers while improving gross margins by 8–12 percentage points.

QC CONSUMER TRUST CRISIS

Documented Platform Failures Across All Major QC Players — The Opening Accesco Fills

The Fragmentation Tax — Urban Bengaluru Family Uses 5 Apps for One Lifestyle

Rs 13,700/month split across 5 platforms. No unified cart. No single budget view.

5 separate logins • 5 UIs • 5 deliveries • 5 separate logins
5 loyalty rules • 5 loyalty points • 0 customer empathy

Source: Urban Bangalore Family Lifestyle Survey 2025 | Economic Times – Superapp Study 2025

KEY INSIGHT

61% of QC users face hidden fees at checkout. 42% experience price discrimination. 38% distrust dark store hygiene. r/FuckZepto has 30,000+ members. Maharashtra FDA violations. This systemic trust breakdown is Accesco's entry window — built on radical transparency from Day 1.

INDIA UNDER FINANCIAL STRESS

Household Savings at a Decade Low — Budget-First Commerce Is No Longer Optional

QC Average Order Value Doubled from Rs 250 to Rs 625 in 4 Years — Households Consolidating Spend

Source: India Briefing QC Market Report Jul 2025 | Zomato Q1 FY25 filing | TeamLease Q-Commerce Report 2025

KEY INSIGHT

India's household savings rate has collapsed from 22.7% in FY21 to 18.1% in FY24 — the lowest in a decade. Every existing commerce app is engineered to increase spend. Accesco's Intelligent Budget Layer is the only platform built to help India's middle class spend smarter, not just faster

WHAT INDIAN CONSUMERS ACTUALLY WANT

Every Accesco Feature Directly Answers a Documented, Sourced Consumer Demand

The Personalisation Demand Gap — What India Wants vs What Platforms Deliver

76% want it. Only 12% say they get it. That's a 64 percentage point gap.

Source: McKinsey & Company 2023 | Deloitte 2023 | Accenture Song Vogue India 2023

KEY INSIGHT

85% want no hidden fees at checkout. 78% want real-time budget tracking built into the app. 74% want to know the exact source of their food. 68% want personalised weekly basket suggestions. 62% want sustainable packaging return options. These are not product features — they are unmet market demands.

WHAT CONSUMERS WANT — ZERO QC PLATFORMS DELIVER

85% Want No Hidden Fees | 76% Want Personalisation | 65% Want Customised Experiences

Bengaluru Family Spends Rs 16,000–34,000/Month on Commerce Accesco Can Serve

Total Monthly Commerce Spend:
Rs 16K - 34K per Bengaluru family

Source: Sekolla Lifestyle Survey of Living Bengaluru 2025 | Nabrher Bengaluru 2024 | Zabi India 2025

KEY INSIGHT

44% would become repeat buyers with customisation. 67% are frustrated when platforms don't personalise. 76% explicitly want personalised recommendations. Yet no Indian QC platform delivers this combination. Accesco's Household Intelligence Layer is purpose-built to close every one of these gaps.

THE PERSONALISATION DEMAND GAP

76% Expect It. Only 12% Say They Get It. A 64 Percentage-Point White Space.

What Indian Consumers Actually Want — That No Platform Delivers Today

Every feature Accessco Living is building directly answers a documented, sourced consumer demand.

Source: Accessco Primary Survey 2024 | NielsenIQ 2024 | Kantar India 2024 | RedSeer Report 2024

KEY INSIGHT

India's personalisation gap is 64 percentage points — the largest documented feature gap in Indian commerce. 68% prefer AI-curated shortlists over full catalogues. 43% want brands to use their data. Accessco's My Home Profile and Mood Mode are the only household-level personalisation engine in Indian QC.

DECISION FATIGUE IS BREAKING COMMERCE

78% Overwhelmed | 76% Say It Lacks Excitement | Only 50% Actually Enjoy Online Shopping

The Supply Chain Tax — Rs 6 Tomato Becomes Rs 40 at Your Door

Six intermediary layers extract Rs 34 of value for no economic transformation. Kakkanadaga.

Rs 34 extracted by 6 middlemen — 567% markup for 600km

Source: Ministry of Agriculture & Farmers Welfare 2024 | JP Research: QC Deep Dive Report, Feb 2024

KEY INSIGHT

78% of Indian online shoppers are overwhelmed by too many choices. 61% shop online only for convenience — not enjoyment. 36% miss the serendipity of unexpected discovery. Accesco's SwipeStyle, Mood Mode, and Time Travel Meals are engineered to restore the delight that mass-catalogue platforms have destroyed.

THE HOUSEHOLD COMMERCE OPPORTUNITY

Bengaluru Family Spends Rs 16,000–34,000/Month on Commerce Accesco Can Serve From One App

What Consumers Want That No QC Platform Delivers Today

Source: Accesco Primary Survey 500+ users 2025 | McKinsey 2022 | BCG India 2024 | Segment 2024

KEY INSIGHT

Groceries: Rs 8–15K. Food delivery: Rs 3–6K. Fashion: Rs 2–5K. Health: Rs 1–4K. One Bengaluru household = Rs 16K–34K of monthly TAM. Accesco is the only platform positioned to capture this entire wallet — from a single app, single cart, and single budget brain.

India is transforming into a consumption-led economy — the addressable opportunity is generational

₹30L
CR

E-commerce market by 2030
(from ₹10.8L Cr in 2024)

Underpinned by

Increasing affluence, demand for quality products and services, and enhanced purchasing experiences across urban India.

45%

CAGR — Online grocery segment
through 2030

Digital Infrastructure

10 billion+ UPI transactions/year. 750M+ smartphone users. Internet reaching 70–73% of population by 2028.

2X

Quick commerce order volumes
grew year-on-year

Online Commerce Users

230–250M transacting online today, growing to 320–350M by 2028 — 8–10% CAGR, adding 110M new users.

350M

Middle-class households —
Accesco Living's target base

Urban GDP Shift

Cities contribute 67% of GDP today, rising to 80% by 2050. India on track to become world's 3rd largest economy by 2028.

The time is now for a deeply personalised, integrated commerce platform that understands household behaviour — not just facilitates transactions.

LocalMeds	Pharmacy & Health	30 min	₹300	Verified pharmacy partners	Phase 2 — Month 9

Strong network effects driven by cross-category intelligence and shared infrastructure

BUSINESS SEGMENTS

Deep-dive into each venture — model, features, and metrics

Grokly — Intelligent grocery delivery with household-level personalisation

GROKLY · Grocery & Daily Essentials

Key Features & Differentiators

- My Home Profile — catalogue restructures for each household type (bachelor, family, joint)
- My Usuals Dashboard — items you always buy, running low, or typically ordered this week
- Auto Meal-to-Grocery Sync — if you order paneer butter masala from Swadisht, Grokly suggests the ingredients
- Smart Value Picks — near-expiry safe products at special pricing with full transparency
- Smart Add Window — 60 seconds post-order to add items without new delivery charge
- Return & Earn Loop — rider collects recyclable waste on return trip; user earns carbon credits

Grokly Metrics & Benchmarks

Industry Dark Store Size	4,500–5,000 SQ F
SKUs (Grocery Dark Store)	~4,000–5,000 SKUS
Orders/Day/Store (Industry)	2,000–2,400
Benchmark Used	2,200 ORDERS/DAY
Average Grocery AOV	₹520
Blended AOV (all categories)	₹610
Monthly Orders (1 store)	66,000
Procurement Margin	≈32% BLENDED
Dark Store — Monthly Rent	₹2.6L (INTEGRATED MODEL)
Includes LocalMeds pharma delivery layer	

Swadisht & DineX — Cloud kitchen, food delivery, and restaurant experience in one platform

SWADISHTT · Food Delivery & Cloud Kitchen

- Swadisht Café — micro cloud kitchens embedded inside dark stores
- Time Travel Meals — dishes recreated from specific eras, regions, personal memories
- Multi-Restaurant Cart — order from multiple restaurants (7km radius) in one cart
- Mood-based food curation — meals aligned with emotional or physical state
- Monthly lunch subscription at ₹2,999 for office and college programs
- Eat Now, Pay Later — for salaried and student segments

₹350

Advantage

Instastyle & LocalMeds — completing the household commerce stack with fashion and health

INSTASTYLE · Instant Fashion Delivery

- 15–20 minute instant outfit delivery — high-demand SKUs pre-stocked in micro hubs
- Trial at Doorstep — delivery partner waits 15 min; only confirmed items billed
- Virtual Try-On — body mapping + size calibration; simulate fit before ordering
- SwipeStyle — swipe-based discovery engine; preferences learned in-session
- Thrift Marketplace — curated resale; circular fashion for affordability
- Local Fashion HeatMap — real-time trending outfits in your neighbourhood

₹1,450

AOV

₹264/order

Gross Margin

₹850/order

Procurement

LocalMeds · Pharmacy & Health

- OTC medicines fulfilled via dark stores; prescriptions via verified pharmacy partners
- Every prescription reviewed by a licensed pharmacist before dispatch
- Smart Refill Predictor — proactively suggests refills before medicines run out
- Medication Adherence & Smart Reminders — dose tracking with reward credits
- Secure Health Record Locker — prescriptions, reports, vaccinations in one place
- Instant Health Emergency Kits — fever care, cold relief, first aid, child care

OTC + Rx + Kits

Embedded in Grokly app

Advantage

UNIT ECONOMICS

The math — per-order economics and integrated infrastructure advantage

Integrated fulfilment hub creates ₹5.05L/month structural cost advantage over separate operations

One 5,000 sq ft hub serves Grokly racks, Swadisht Café kitchen, Instastyle racks, dispatch hub & reverse-logistics sorting — raising asset utilisation from 45% → 80%

Cost Category	Separate Model (₹/mo)	Integrated Model (₹/mo)	Monthly Saving
Rent	₹4.5L	₹2.6L	₹1.9L
Staff Salaries	₹3.5L	₹2.2L	₹1.3L
Operations Overhead	₹2.5L	₹1.9L	₹0.6L
Inventory Management	₹1.2L	₹0.8L	₹0.4L
Electricity	₹1.2L	₹0.8L	₹0.4L
Security / IT Infra	₹0.6L	₹0.4L	₹0.2L
Cold Storage	₹0.5L	₹0.35L	₹0.15L
Kitchen Utilities	₹0.45L	₹0.35L	₹0.10L
TOTAL	₹14.45L	₹9.40L	₹5.05L

Integrated model delivers ₹63 EBITDA per order — 10.3% margin vs. -₹39 for standalone grocery

Revenue Stack / Order	
Product Margin	₹210
Delivery Fee	₹30
Platform Fee	₹12
vSubscriptions	₹25
Brand Ads	₹18
LiveFeed	₹10.5
LiveFeed	₹5
TOTAL	₹310.6

REALISTIC 24-MONTH TRACTION MAP

Conservative. Grounded in Zepto / Dunzo / BigBasket Benchmarks. 2–3x Faster with Pre-Validated Households.

Realistic Traction Map — 24 Months

Conservative, Accesco launches with 5,000+ pre-validated households. Zepto hit 100+ daily orders in Month 1 with no pre-existing audience. Accesso's data advantage should generate 2–3x faster traction.

KEY INSIGHT

Accesco launches with 5,000+ pre-validated households from its co-living base — giving it a CAC-0 head start Zepto never had. This 24-month map tracks Beta (MAU growth), MVP (MAU + subscriptions), and Launch (daily orders + GMV) phases. By Month 24: 60,000 MAU, 2,000+ daily orders, Rs 10Cr monthly GMV.

Sustainability embedded into operations — not as an afterthought, but as a revenue mechanism

Environment

- **Return & Earn Loop** — closed-loop reverse logistics using existing rider routes
- **Eco Packaging Standards** — vendor code applied to 100% of supply chain
- **Smart Value Picks** — reduces perishable waste by surfacing near-expiry stock at discounted pricing
- **Carbon credits** issued to users as redeemable in-app wallet balances

Social

- **Gig partner welfare** — merit-based earnings through Community Flow Order batching
- **LocalMeds** — verified pharmacist review on every prescription; health record locker for families
- **Swadisht Café** — structured lunch programs for office and college segments
- **Thrift Marketplace** — circular fashion platform reducing fast fashion waste

Governance

- **Transparent Smart Value Picks** — best-before dates displayed prominently
- **Verified pharmacy partnerships** with pharmacist-reviewed prescriptions
- **Ethical data use** — household profiles stored securely, never sold
- **Three-stage scale-up framework:** PMF → BMF → Profitable Scalability Testing

Reverse Commerce ROI: 20% adoption rate → ₹5 revenue/order from recycling + scrap aggregation. Zero additional route cost — rider is already returning.

APPENDIX

Supply chain, detailed cost structure, and benchmarks

Supply chain stages — Hyperpure-style direct procurement removes distributor margin

Procurement Margin Benchmarks

Category	Distributor Model	Direct Procurement
FMCG	8–10%	12–15%
Staples	6–8%	10–12%
Fresh Produce	10%	18%
Private Label	15%	25–30%
Cloud Kitchen Food	50%	65%
Fashion	30%	40%
Blended procurement margin ≈ 32% via Hyperpure-style direct sourcing
